CAREER OBJECTIVE

A passionate UI developer, with hands on experience of building high performing mobile applications, having a strong technical background. Highly adaptive to new technologies and frameworks & ready for all challenges associated with the industry.

WORK EXPERIENCE

Flutter Developer   Jul 2022 - Apr 2025
Sunra Softtech Pvt Ltd, Pune

- Developed and maintained cross-platform mobile applications using Flutter and Dart for Android and iOS platforms.
- Integrated third-party libraries such as Firebase, Google Maps, and RazorPay, improving app performance and backend communication by 30–40%.
- Implemented Bloc for state management, resulting in 50% improvement in code maintainability and scalability.
- Deployed applications to Google Play Store and Apple App Store, streamlining submission, compliance, and reducing time-to-market by up to 50%.
- Designed interactive UI components and animations, increasing user engagement and retention by 25–35%.
Collaborated with back-end developers to optimize RESTful API consumption, enhancing app speed and responsiveness.

Flutter Developer   Jan 2022 - Jul 2022
Syscryption Technology Pvt Ltd, Pune

- Built and optimized Flutter apps with efficient RESTful API integration and CRUD operations, improving backend responsiveness by 30%.
- Integrated Google Maps and RazorPay, enabling secure in-app payments and geolocation features.
- Debugged critical bugs and optimized performance, leading to 40% improvement in app stability across devices.
- Developed custom widgets and reusable UI components, accelerating development cycles and enhancing code consistency by 50%.

PROJECTS

CineQube ↗
Mar 2024 - Apr 2025

- Integrated Firebase push notifications with Bloc state management, ensuring seamless real-time updates and enhancing overall app responsiveness and user engagement.
- Implemented a basic video player using the PodPlayer package to support video playback from platforms like YouTube and Vimeo, improving media accessibility within the app.
- Integrated secure UPI payments using the third-party flutter_upi_pay library, enabling smooth and instant in-app transactions.
- Developed offline video functionality, allowing users to download and store videos locally using Sqflite, with efficient database management for improved performance and user convenience.
- Added flexible subscription plans, including monthly, quarterly, and yearly options, to support different user preferences and monetize content effectively.

Grow Knowledge
Oct 2023 - Nov 2023

Developed a basic Quiz Application with seamless REST API integration for dynamic content delivery, real-time contest updates, and efficient user data management.
Integrated Firebase Push Notifications to notify users about upcoming quizzes, results, and promotional events, improving user engagement and retention.
Implemented user participation flow for both free and paid contests, including secure entry validation and contest tracking.
Built KYC (Know Your Customer) functionality, enabling users to upload and verify Aadhaar and PAN card photos securely, ensuring compliance with legal and business requirements.

Jeeyo Ride ↗
Jan 2025 - Present

- Implemented Google Maps integration with auto-complete place search and geofencing for nearby drivers, coupled with intuitive UI design to enable real-time location tracking and enhance user engagement.
- Integrated Firebase push notifications using Bloc state management to ensure seamless and efficient real-time updates and improve overall app responsiveness.

Rajyog Matka ↗
Aug 2024

- Developed and maintained a Matka gaming application, implementing core betting features such as Single Pana, Double Pana, Triple Pana, and Family Pana, enabling users to participate in various game formats securely and seamlessly.
- Integrated Firebase Cloud Messaging (FCM) and OneSignal for push notifications, ensuring reliable and timely updates for game results, offers, and user activity.
- Implemented UPI-based payment system using flutter_upi_pay, allowing secure and instant in-app deposits and withdrawals to enhance the user transaction experience.
- Integrated backend APIs for withdrawal functionality, ensuring smooth and secure money transfer operations aligned with business logic and regulatory requirements.

Sanjeevani Matka ↗
Aug 2023 - Oct 2023
