Summary:

I am a passionate Flutter Developer with 3+ years of experience in crafting high-performing mobile applications for both Android and iOS. With a strong technical foundation and a keen focus on UI/UX and performance optimization, I excel at leveraging new technologies to enhance app functionality and user experience. I thrive in dynamic environments and am dedicated to producing seamless, user-friendly applications.

Experience:

Sunra Softtech Pvt. Ltd., Pune - Senior Flutter Developer

July 2022 – April 2025

- Integrated **Google Mobile Ads SDK** into Flutter application to monetize via ads.
- Configured **AdMob App ID** and set up **Banner Ads**, **Interstitial Ads**, and **Rewarded Ads**.
- Utilized the `google_mobile_ads` Flutter package for seamless ad rendering.
- Implemented platform-specific configurations for **Android (AndroidManifest.xml)** and **iOS (Info.plist)**.
- Tested ad functionality on both real devices and emulators using **test Ad Unit IDs**.
- Integrated third-party libraries **(Firebase, Google Maps, RazorPay)** improving app performance and backend communication by up to 40%.
- Used **Bloc for state management,** improving code scalability and maintainability by 50%.
- Managed app store deployment processes (Play Store & App Store), reducing time-to-market by up to 60%.
- Designed interactive UI components and **animations**, increasing user engagement by 25-35%.
- Collaborated with backend teams for **optimized RESTful API integration,** boosting app speed and responsiveness.

Syscryption Technology Pvt. Ltd., Pune - Junior Flutter Developer
Jan 2022 – July 2022

- Developed and optimized Flutter apps with **RESTful API integration** and **CRUD operations.**

- Implemented **Google Map**s and **RazorPay** to support location-based services and secure in-app payments.

- Resolved **critical bugs** and optimized performance, increasing app stability by 40%.

- Created reusable UI components and **custom widgets** to speed up development and ensure code consistency.
- To integrate **QR code scanning functionality** in a **Flutter** app using **Dart**.

Technical Skills:

- **Languages:** Dart, HTML, CSS, JavaScript,C

- **Frameworks/Libraries:** Flutter, Bootstrap, jQuery

- **State Management:** Bloc State Management,GetX

- **Tools/Platforms:** Android Studio,Vs Code,Postman

- **Database:** PostgreSQL, Sqflite

Projects

CineQube (Mar 2024 – Apr 2025)

- Integrated Firebase push notifications using BloC for real-time updates and improved responsiveness.

- Implemented video playback using PodPlayer (YouTube/Vimeo support).

- Enabled secure UPI payments via flutter_upi_pay.

- Added **offline video storage with Sqflite** for better user convenience.

- Designed subscription plans (monthly, quarterly, yearly) to support monetization.

Grow Knowledge *(Oct 2023 – Nov 2023)*

- Developed a quiz app with dynamic content via REST API and real-time updates.

- Added **Firebase push notifications** for contests and promotions.

- Integrated KYC features for secure Aadhaar & PAN card upload and verification.

- Supported free and paid user participation with proper validation.

Jeeyo Ride *(Jan 2025 – Present)*

- Integrated Google Maps with place auto-complete and real-time driver tracking.

- Used Firebase for efficient push notifications and app responsiveness.

Education:

Master of Computer Science (M.C.S.)
Sarhad College of Arts, Commerce and Science
2019 – 2021

Bachelor of Computer Science (B.C.S.)
Vishwakarma College of Arts, Commerce and Science
2015 – 2018

Senior Secondary (XII), Maharashtra Board
S.M.S. Mohite Patil Jr. College, Rahimatpur
2015

Secondary (X), Maharashtra Board
Dr. V.G. Kakasaheb Paranjape Vidyalaya, Rahimatpur
2013

DECLARATION

I hereby declare that the facts given above are genuine to the best of my knowledge and belief. Thanking You,

Yours Faithfully,

Sunil Shedge.
